01 WORK EXPERIENCE

Summer Intern

Analog Devices Romania

07/2026 – 08/2026 Cluj-Napoca, Romania

During my Analog Devices internship, I navigated through hardware engineering and software development, from PCB and FPGA design to Python scripting and CI/CD automation. During this time, I learned new concepts:

- **Hardware design**:
  - Simulated analog circuits in **LTspice.**
  - Designed schematics and PCBs using **KiCad.**
- **FPGA & HDL Development:**
  - Created custom IP core in **Verilog.**
  - Implemented FPGA design using **Xilinx Vivado.**
- **Software design**:
  - Developed embedded scripts in **Visual Studio Code.**
  - Streamlined CI/CD workflows using **GitHub Actions.**
  - Built application scripts using **Python.**

Conducted most software development within a **Linux-based environment**.

02 EDUCATION AND TRAINING

Automation, applied informatics and smart systems | Bachelor's Degree

Technical University of Cluj-Napoca, Faculty of Automation and Computer Science

10/2023 – present Cluj-Napoca, Romania

03 PERSONAL PROJECTS

Hardware Projects:

- Electronic projects and **hardware** prototype development.
- Applied electronics and **DIY** projects.
- **Subjects**: 3D printed train network, 2S 18650 battery charger, self-watering plant system, alarm system based on human presence. -> **Link**: https://github.com/teodormorosanu/Electronic-Projects

Software Projects:

- Interactive app and game development using **Unity** (Windows + Mobile).
- Testing and refactoring experience and continuous learning of **software** principles.
- **Subjects**: zombie shooter, ocean exploration, puzzle, electronics for kids. -> **Links**: https://github.com/teodormorosanu/Zombie-Game | https://github.com/teodormorosanu/Subdive | https://github.com/teodormorosanu/DirectMaze | https://github.com/teodormorosanu/CusCusPolihackv15

YouTube **Channels:**

- **teoelectric** - YouTube channel where is presented the making process of the 3D printed train network.
- **Romanian SR Beats** - YouTube channel where is presented remixed music based on speed and echo (slowed + reverb).
- **T3do Dev** - YouTube channel where are showcased some of my games (made using Unity engine). -> **Links**: https://www.youtube.com/@teoelectric | https://www.youtube.com/@rosrbeats | https://www.youtube.com/@t3dodev
